Optimistic neuroengineer driven by creativity and positive energy.
I believe in long-term resilience, meaningful collaboration, and
building technology that genuinely helps the community around me.

Career History

AI - ML Engineer

IDNEO Technologies Inc.

Barcelona, Spain (Nov 2024 - present)

Development of AI models for embedded systems in the automotive industry, including data collection, model training, and deployment.

Software Engineer Collaboration

PRBB - Hospital del Mar

Barcelona, Spain (Sep 2024 - Dec 2024)

Use of focused ultrasound for spinal cord neuronal stimulation. Medical product development startup.

Neuroengineering Research Intern

i3S - Neuroengineering & Computational Neuroscience

Porto, Portugal (Feb 2024 - Jun 2024)

Development of neuron models for detection of patterns associated with memory in the hippocampus of mice. The neuron model was then mapped to neuromorphic hardware.

Projects

Final Degree Project

Neuromorphic computation on low-power microcontrollers for closed-loop signal detection applications.
